

CALL FOR PLANTS

SATURDAY, MAY 18

Make it Grow Plant Sale

The Connecticut Science Center is excited to announce its 4th Annual Make it Grow event on May 18, 2024, in conjunction with our Family Gardening Day. The focus is to highlight the importance of growing healthy, smart, green, and local through engaging on-site and virtual demonstrations, displays, activities, and hold a large plant sale. This event is planned in partnership with the Connecticut Master Gardener Association.

Over the past few years, with the support of the Garmany Foundation and the Middlesex Community Foundation, the Science Center's Plaza, has undergone a transformation into a vibrant public space. With over 10,000 native and sustainable plantings installed by a team of volunteers, the gardens highlight the importance of urban biodiversity and contribute to a revitalization of Hartford's greenway. We are excited to share our wonderful native and sustainable plantings with the public at our annual Plant Sale, and we are also looking for feature donations from our incredible Master Gardener community.

We kindly request that all donated plants must:

Fill 4" pots or larger

Have clear labels

Be native and sustainable plants or vegetables

House plants or patio plants for smaller spaces

Plant Drop Off:

**May 1-16, 2024 at the Connecticut Science Center
loading dock on Grove Street in Hartford**
