ACKNOWLEDGEMENTS

WITHOUT HELP FROM THE FOLLOWING FOLKS, I WOULDN'T BE HERE TODAY

Many, many THANKS to Marjorie Bingham, Maureen Gillis and Tracy Burrell for luring me off of my mountain paradise in what still seems like the middle of the winter.

And THANKS to all of you, my fellow Plant Nerds and Garden Geeks for coming here today to learn more about new plants.

Happy Gardening,
B.

NOTES

BIBLIOGRAPHY AND RESOURCES

Each of the 50 states in the US has some type of Native Plant Society. I have a complete listing of these societies. If you are interested in a particular state or regions flora, please let me know and I will be pleased to supply you with the address of that states society.

There are many reference books both in and out of print that describe US Native plants. I have listed below some of the ones that I have found most valuable in my work. I will be glad to help you obtain any of the ones that are still in print.
